

Assessment Strategies & Data-Informed Design

Formative v. Summative Assessments
Summative Assessment Examples
Data Analytics Dashboard

Formative Assessment

Check for understanding during instruction

- Low stakes
- Quick feedback
- Guides adjustments

Alignment to LO 1: Differentiate formative v. summative

Examples

- Exit ticket
- Live poll
- Quick journal

UDL Checkpoint

- Multiple means of expression
- Options for engagement
- Optimized for relevance

Summative Assessment

Evaluate mastery after instruction

- Higher stakes
- Usually graded
- Measures if learning objectives were met

Alignment to LO 1: Differentiate formative v. summative

Examples

- Infographic project
- Reflective video
- Short paper

UDL Checkpoint

- Multiple means of expression
- Expression and communication
- Provide choices in how to demonstrate learning

Summative Assessments

Compare & Contrast

You can use the chart to compare and contrast your current study strategies with those discussed in the module. Responses can be written, submitted using audio or a visual representation of the similarities and differences between your current study strategies and those discussed in this module.

Instructions

Alignment to LO 2: Choice-based summative assessment

Identify 6 Study Strategies

[Padlet discussion board link](#)

Alignment to LO 2: Choice-based summative assessment

UDL Checkpoints

- 1.2 Alternatives for auditory information
- 2.5 Multiple media: icons, brief text
- 3.3 Guide information processing and visualization

Data Analytics Dashboard

Data Capture

- Limited fields to the most important ones needed for tracking completion
- No Personally Identifiable Information (PII) visible or linked

**Alignment to LO 3: Ethical analytics dashboard
CETL III**

Privacy Safeguards

- Used Student ID
- Unique identifier: Date Completed
- Used Airtable for additional security, it is permission-based

**Alignment to LO 3: Ethical analytics dashboard
CETL III**

Nothing is likely to drive student learning more than the method of assessment. (Bates, 2022)

Status of Assessment Completion

Assessment Dashboard Link

Status

- Completed Assessment 1
- Completed Assessment 2
- Completed both
- Extension granted

Completed both	Extension granted	Total
0	0	2
0	1	1
1	0	1
1	0	1
2	1	5

aggregating sensitive data. Certain filters or configurations can expose the underlying data to other users of this interface.
